SAMPLE RELOCATION AGREEMENT (OPTIONAL)

Because lead hazard reduction work in older homes can generate lead-contaminated dust that could be dangerous to occupants, particularly young children, it will be necessary to temporarily relocate your family during this phase of the rehabilitation and renovation work. To help reduce the financial and emotional burden of temporary relocation, this agency provides some funding to offset the cost of packing and storing personal belongings and furnishings, moving to and from the home when work is complete and, in cases where the family has no alternative housing, temporary "lead-safe" housing.

The following worksheet identifies potential benefits you receive if you and your belongings must be temporarily relocated during lead hazard control work. While these benefits may not fully cover all expenses, they represent a major contribution towards the financial burden of relocation.
