

# Relocation for Projects with Lead Hazard Reduction Activities

Property Address: \_\_\_\_\_

Owner: \_\_\_\_\_

Relocation for this project was: (check one)

\_\_\_\_\_ Required (All items listed in Section A were performed and appropriate documents are attached.)

\_\_\_\_\_ Not required due to circumstances listed in Section B.

---

A. Relocation of occupants was required and the following activities occurred for occupant protection:

- Occupants were not permitted to enter the worksite during hazard reduction activities.
- Occupants were temporarily relocated before and during hazard reduction activities for their protection.
- Dwelling unit and worksite were secured against unauthorized entry.
- Occupants' belongings in a containment area were relocated to a secure area outside the containment area or covered with appropriate materials.

B. Relocation of occupants was not required due to the following circumstances:

- Work did not disturb lead-based paint, or involve any lead dust hazard reduction activities.
- Work in the interior of the unit was completed within one period in eight daytime hours, the site was contained, and the work did not create other safety, health, or environmental hazards.
- Only the building's exterior was treated; the windows, doors, ventilation intakes, and other openings near the worksite were sealed during hazard reduction activities and cleaned afterward; and a lead-free entry was provided.
- Treatment was completed within five calendar days; the work area sealed; at the end of each day, the area within 10 feet of the containment area was cleared of debris and cleaned; at the end of each day, occupants had safe access to sleeping areas, bathroom, and kitchen facilities; and treatment did not create other safety, health, or environmental hazards.
- HUD has advised that the relocation of elderly occupants is not typically required, so long as complete disclosure of the nature of the work is provided and informed consent of the elderly occupant(s) is obtained before commencement of the work. (See "Interpretive Guidance—The HUD Regulation on Controlling Lead-Based Paint Hazards in Housing Receiving Federal Assistance and Federally Owned Housing Being Sold," 6/22/00 edition.)
